- State promised a 33.3% reimbursement
- Actual reimbursement was 30.6%
- \$357,000 shortfall from amount promised by the State

## This Year

- State promised 42% reimbursement
- DPI foreshadowing another shortfall
- Projecting a shortfall of \$355,000 from State's promise
- Will likely be an even larger shortfall next year (State promised 45%)

# State Special Education Reimbursement Shortfall

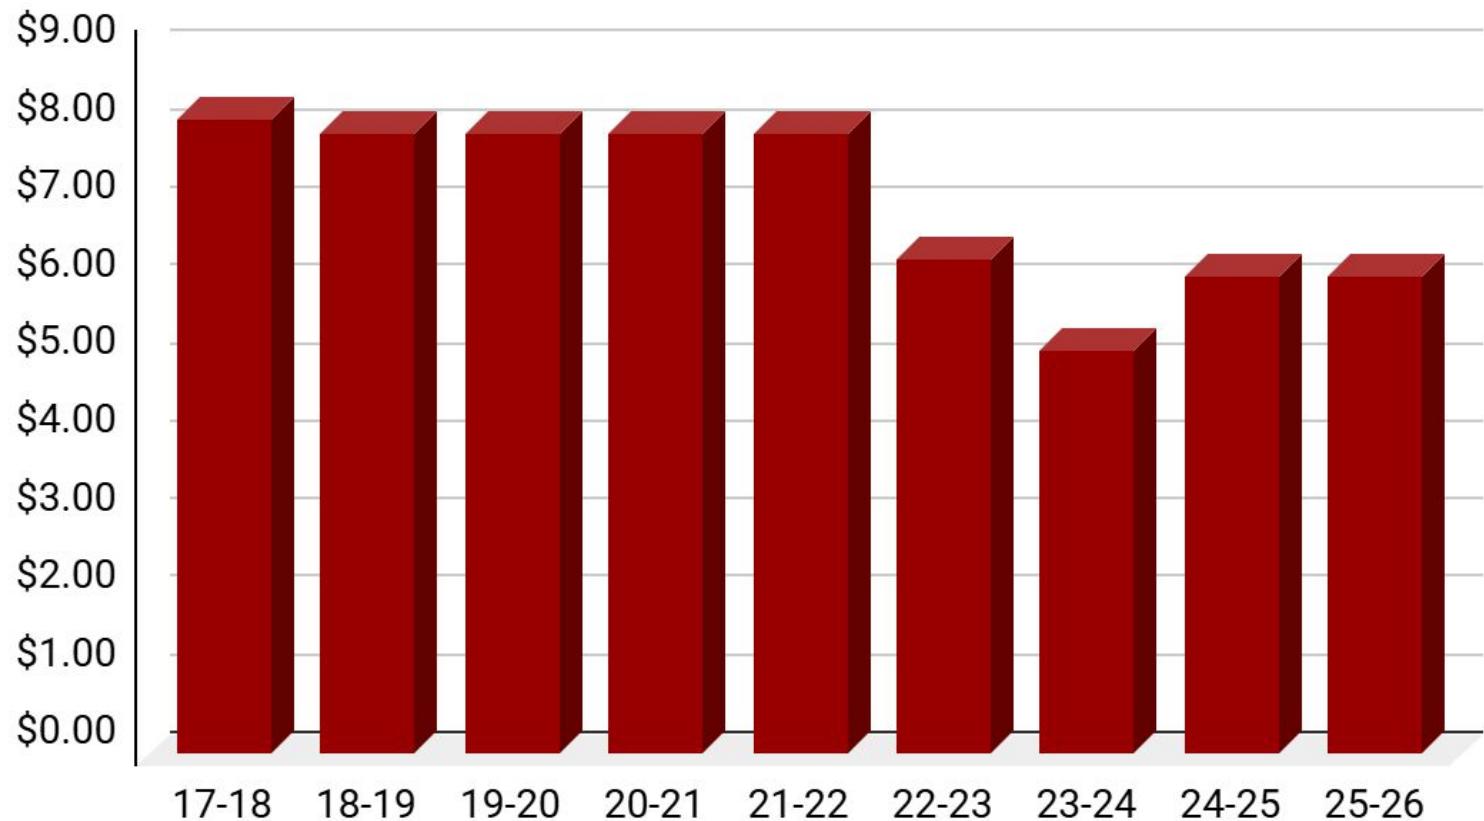

# Mill Rate

**Remains flat at \$6.14**

- Last year's state average mill rate was \$7.09 for K-12 districts
- \$6.14 is an average across the District
- An individual taxpayer's mill rate will vary depending on their municipality

# Mill Rate

# REVIEW

## Common Question

Does a flat mill rate mean my property tax bill will not change?

## Common Question

Does a flat mill rate mean my property tax bill will not change?

**Answer:** No. An individual's property tax bill can go up or down, even if the mill rate stays flat. This is dependent on several factors.

$$\frac{\text{Total School-Based Tax Levy}}{\text{Equalization Property Value}} \times \$1,000 = \text{Mill Rate}$$

# Factors impacting property tax bills

1. Change in an individual's property value
2. Change in the municipality's property value
3. Change in the municipality's property value in relation to the property value of other municipalities in the WBSD
4. The amount of the tax levy

# What can impact an individual's property value?

1. Addition or construction
2. Change in condition
3. Reassessment

# Key Budget Highlights

# Key Budget Highlights

- Flat mill rate of \$6.14
- A balanced general fund budget is proposed
- Fund Balance remains healthy

# Questions & Action

Motion to approve the final budget  
recommendation and certification  
of tax levy as presented
